Puretec offer a range of filters, spares & fittings designed specifically for caravans and RVs. See your nearest Puretec Dealer for details or visit [puretecgroupp.com](http://puretecgroupp.com) for details.

# GET THE MOST OUT OF YOUR BORE.

## WHY IS MAINTAINING YOUR BORE IMPORTANT?

You probably hear time and time again how important maintaining your bore water system is, the big question is why? How do you benefit from it?

All bores are unique, they are drilled in different formations, effected by different contaminants and are different depths but they do have some things in common. Many bores and pumps fail because they are either not maintained correctly or changes within the bore are so gradual they go unnoticed until its too late and has caused damage to the pump.

The complexity of issues within bores do vary but each problem will cause inconvenience and financially impact the bore owner. Problems such as clogging, silt/clay infiltration, chemical encrustation, reduction in the water table, structural failure and water entry issues.

One of the most common issues is iron build-up. Iron causes blockages in your bore and pipework and can easily damage your pump if left untreated. Iron also ruins everything it comes into contact with leaving unsightly orange and brown staining.

The easy solution to iron build-up is Puretec's own BoreSafe™ Iron

Build-up Bore Cleaner, as the name suggests it is a safe and easy product to apply. BoreSafe™ is also a biodegradable chemical designed specifically to break down the iron build-up in the bore itself, the bore pump and pipework.

BoreSafe™ eliminates rusty slime, unpleasant odours, orange brown staining and other deposits. It breaks down the iron so that the water can flow freely again and it reduces the strain that blockages can put on your pump.

As part of the monitoring and maintenance of any bore, it important to know what contaminants are in your water and a water analysis should always be done as part of this process.

At high levels, iron needs to be treated with an iron removal water treatment system. Water that contains bacterial iron also requires pretreatment. Using the information gathered from you and your water analysis, the Puretec Water Treatment Team can give you expert advice on the right water treatment product and give you confidence in the quality of your water.

## BORESAFE™, BORESAFE™ ECO & IRON REMOVAL SYSTEMS AVAILABLE

#### Terms & Conditions

The Promoter of this promotion is Puretec Pty Ltd (ABN 44 164 806 688). Entry is free and open to residents of Australia. Entrants under 18 years old must have parental/guardian approval to enter the competition. Employees of the Promoter and their immediate families are ineligible to enter. Competition closes Tuesday the 31st of August 2021. The winner will be contacted via email on Friday the 3rd of September 2021. The winner will receive one (1) Nespresso Essenza Mini Solo Breville in pure black. The Prize will be mailed to the winner. The promoter is not responsible to discuss the product giveaway features and functionality. It is the entrant's responsibility to know the product giveaway details. This is the recommended link: <https://www.nespresso.com/au/en/order/machines/original/essenza-mini-breville-pure-black-solo>. The Promoter is not liable for any other additional costs associated with winning this competition. If any prize remains unclaimed after 14 days of the winning submissions being announced, the Promoter may deem that the grand prize winner is ineligible to receive the prize. Prizes are not transferable or exchangeable and cannot be redeemed for cash. The Promoter accepts no responsibility for any variation in the value of prizes. Information regarding prizes is part of these terms and conditions. Entry into the competition has deemed an acknowledgement and acceptance of these terms and conditions. The Promoter reserves the right, at any time, to verify the validity of entries and the identity of entrants. Proof of entry and identity will only be deemed as sufficient at the discretion of the Promoter. If this competition is interfered with in any way or is not capable of being properly conducted due to any reason beyond the reasonable control of the Promoter, the Promoter reserves its rights to disqualify any entrant, remove any entry or to modify, suspend, terminate or cancel this competition, to the extent permitted by law. The Promoter will not be liable for any loss (including, without limitation, indirect, special or consequential loss or loss of profits), expense, damage, personal injury or death which is suffered or sustained (whether or not arising from any person's negligence) in connection with this competition or accepting or using any prize, except for any liability which cannot be excluded by law (in which case that liability is limited to the maximum extent permitted by law). Personal information provided by entrants will be used by the Promoter to conduct this competition and otherwise by contestants' consent. This promotion is in no way sponsored, endorsed, administered or associated with Nespresso.
