THE ALL NEW SPARQ-S6 SERIES.

NEW!

The **ALL NEW** SPARQ S6 chilled, sparkling, and hot water filter system will make a statement in your entertaining space. Having a SPARQ S6 makes all the difference as beverages are more refreshing, easier to make and instantly delivered, meaning you can spend more time with your guests. With the SPARQ S6, you won't need to wait for the kettle to boil or the need to store bulky sparkling water bottles. Imagine having ready-to-use hot, chilled, or sparkling filtered water, all from one modern tap with an easy-to-use touch LED control panel.

The intelligent ECO mode saves energy and money by detecting activity in its installed environment, meaning it will enter into a sleep mode, using less power when the system is not needed but will awaken ready for use once it detects activity again.

- A choice of sparkling, chilled & hot filtered water, straight from the tap.
- Designed for domestic use.
- Cost effective, meaning it is a luxury you can afford.
- Soft touch buttons on the stylish LED panel.
- Compact under sink system.
- Includes quick -twist Ultra Z filter system.
- Sleek and elegant design looks great in your kitchen or entertaining area.
- Includes a built in cooling system for refreshingly chilled water.
- Easy DIY cartridge & CO₂ canister replacement.
- Choice of chrome or matt black tap.

BUNDLE DEAL BUY A SOFTENER & GET A FILTER SYSTEM 1/2 PRICE!

Purchase a SOL30-E3 or SOL40-E3 water softening system during Puretec's Winter Special and get a WH2-55 whole house filter system for half price.

SOL-E3 SERIES

Volumetric E3-Matic™ Softrol™ Water Softening System

A WaterMark approved water softener to reduce scaling and spotting in your home or building. Insist on a certified system.

Hard water is water that contains dissolved minerals such as limestone, iron, sulphur, magnesium and calcium. If these minerals are not removed from your water, they will cause scaling, eventually blocking plumbing and shortening the life of appliances, particularly hot water units, dishwashers & washing machines.

Softened water also makes cleaning easier, with less build-up on shower screens, shampoo and soap is easier to completely wash out and is easier to lather, meaning you use less.

WH2-55

Whole House Dual Water Filter System (20")

Enjoy purified water at every outlet in the house or building. WH2-55 is designed for mains water supplies reducing chlorine, taste & odour, chemicals and sediment in your water, giving good general purpose filtration. The system provides spring-like quality water throughout the house and because there is no power required, it is very economical.

The system protects and prolongs the life of appliances throughout your home and features long-life filter cartridges. It operates on low pressure which is important when multiple taps are used simultaneously throughout the day.
